-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This Office action is responsive to the amendment after final, 10 February 2006.
2. Applicant's arguments with respect to claims 21-25 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 21 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Begun et al., U.S. Patent No. 5,884,094 (“Begun”).

As per claim 21, Begun teaches a system comprising:

- a controller to modify the address of a boot device (fig. 1, MC/PGHB 20; figs 2A-E; col. 6, line 5 – col. 7, line 18);
- a volatile memory coupled to said controller (fig. 1, DRAMS);
- a bus coupled to said controller, said bus configured after the boot sequence (fig. 1, peripheral bus 18; col. 5, lines 19-26); and
- a programmable non-volatile memory coupled to said bus, said memory storing system boot instructions (fig. 1, ROM 16 in slot 26; col. 5, lines 5-18).

As per claim 22, Begun teaches said system boot instructions include the basic input/output system (col. 5, lines 5-18).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 23 is rejected under 35 U.S.C. 103(a) as being unpatentable over Begun as applied to claim 21 above, and further in view of Klein, U.S. Patent No. 5,985,551.

As per claim 23, Begun does not expressly teach that said non-volatile memory is a FLASH memory. Klein teaches a FLASH memory for storing system boot instructions (col. 2, line 66 – col. 3, line 5). At the time the invention was made, it would have been obvious in view of Klein to one of ordinary skill in the art to apply a FLASH memory as Begun's non-volatile memory, as FLASH memory is a well known form of non-volatile memory.

Allowable Subject Matter

7. Claims 24 and 25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Albert Wang whose telephone number is 571-272-3669. The examiner can normally be reached on M-F (9:30 - 6:00).
